

Sustainability at the 24th World Scout Jamboree

Sustainability at the Summit

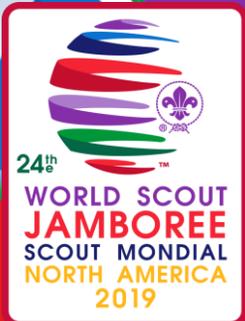

What would be the impact of 45K+ Scouts?

We need to be responsible!

We need to try our best, from the planning team, the units, ISTs, CMTs... everyone!

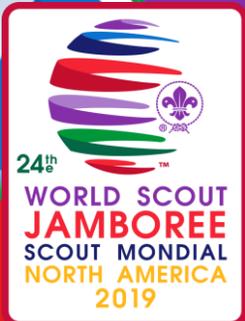

Have you seen the Sustainability video??

<https://www.youtube.com/watch?v=QNq3Ym5AAN8>

- Commitment to SBR's 8 pillars of sustainable jamboree planning:

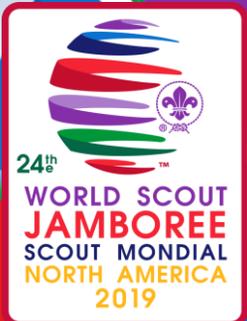

- 1. Design** for Scouts, not cars or trucks.
- 2. Minimize** impacts to areas that have already been disturbed.
- 3. Generate** on-site renewable energy.
- 4. Recycle** water, clean it passively, and return it to the watershed.
- 5. Conserve** energy and water.
- 6. Choose** materials that are healthy for people and the environment.
- 7. Treat** wastes as resources and find ways to use and recover them.
- 8. Measure** the progress by these pillars.

Other efforts...

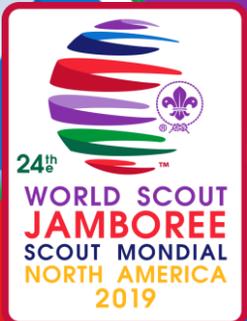

- Intention to increase recycling of waste at WSJ.
- Plans to provide web-based training to IST and participants in advance to enable to be aware of and adopt sustainability practices
- Plans to be responsive to cultural differences.

→ We need your feedback!

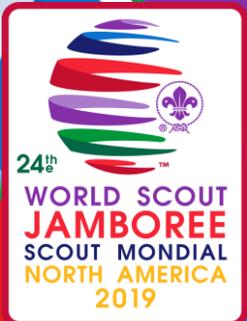

Plus...

Educate Scouts about the Sustainable Development Goals (SDGs) and Sustainability in general through Program pillar.

Other issues we are working on...

- Composting
- Squat toilets

Thank you!
