## **Arrivals to the Jamboree**

Do you want your NSO's IST and contingent members to speed through the on-site arrivals process? Here are some key steps to complete to make the arrivals process proceed as smoothly as possible.

- o <u>Registrations</u>
  - Ensure all IST and contingent members attending are registered and NSO-approved in the Jamboree registration system
  - Ensure all IST and contingent members have completed their consents and acknowledgements
  - Using the registration system, place contingent participants into units
- <u>Health History</u> Ensure all IST and contingent members have completed their electronic online World Scout Jamboree health history
- <u>Safe From Harm</u> Ensure all adult IST and adult contingent members have completed Safe From Harm training AND bring a record of their completion along with them to avoid having to complete the course on-site
- o <u>Be Prepared</u>
  - To answer questions about whether there have been changes to your contingent's **roster**, in case there is a need to update attendance and credentials
  - To answer questions regarding contingent members' health during the previous 24-hour period
- o <u>Travel</u>
  - Register your IST and contingent members' travel with our transportation coordinator, <u>TMS</u>
    - If arriving at official airport entry points, CLT (Charlotte, North Carolina) or CRW (Charleston, West Virginia), register airline, flight number(s), arrival and departure times

- NOTE that Charleston, South Carolina is **NOT** an official Jamboree airport entry point
- If arriving at official rail entry point, PRC (Prince, West Virginia), register train number, arrival and departure times
- If arriving directly to the JW and Hazel Ruby Welcome Center on US Highway 19 via privately-arranged transportation, register a request for privately-arranged arrival and departure times

- Adhere to the timetable TMS provides for your IST and contingent members
